EXPERIENCE

Apprentice Web Developer
LettingaProperty.com

2019-2020
Henley-in-arden, UK

Starting as an apprentice web developer in a small company, I was the first formal member of the I.T/Marketing/Development department that exists now. I helped to shape my role and took on a vast number of responsibilities within the company, including a lot of system administration and technical support.

- Helped to apply stylistic changes to an aging website.
- Worked to improve SEO and rankings for listed pages.
- Created new functionality for the website's front end such as calculators, lead-gen forms and PPC pages.

Software Developer
LettingaProperty.com

2020-Present
Henley-in-arden, UK

Moving away from my apprenticeship role, I was now tackling harder projects with a faster turn-around. While being able to confidently implement certain best practises.

I further expanded my responsibilities here.

- Took on leading the testing of the new version of the website.
- Coordinating with Designers, Off-shore developers and the CEO of the business to create solutions and implement them.
- Fully integrated into the processes of the business and fronted a large part of website related responsibility.
- Training people on systems that we use and what problems they solve.

Sports Coach
Wyndley Leisure Center

2014-2019
Sutton Coldfield, UK

I worked part time as a sports coach for my local Judo club, but later got involved in Gymnastics, Trampolining and Football coaching as I had experience in all of those sports.

I went through a qualification for Gymnastics coaching to allow me to Lead coaching sessions which gave me a lot of responsibility for each session, making sure that equipment was safe to use and that the session ran smoothly.

- Customer facing role
- Careful planning and structure for coaching sessions to provide clear progression.
- Quick-thinking and adaptability during unplanned events, such as injuries, fire alarms, etc.
- Training new coaches and helping with personal development, i.e. confidence and attention to detail.

EDUCATION

Bachelor of Arts Degree, Sports Development and Coaching – Staffordshire University, UK
Level 3 Software Developer Apprenticeship - JBC Skill Training, Coventry.
Full Stack Flex Coding Bootcamp (currently undergoing) - Birmingham University
